

D25981

30KG 28mm HEX PAVEMENT BREAKER

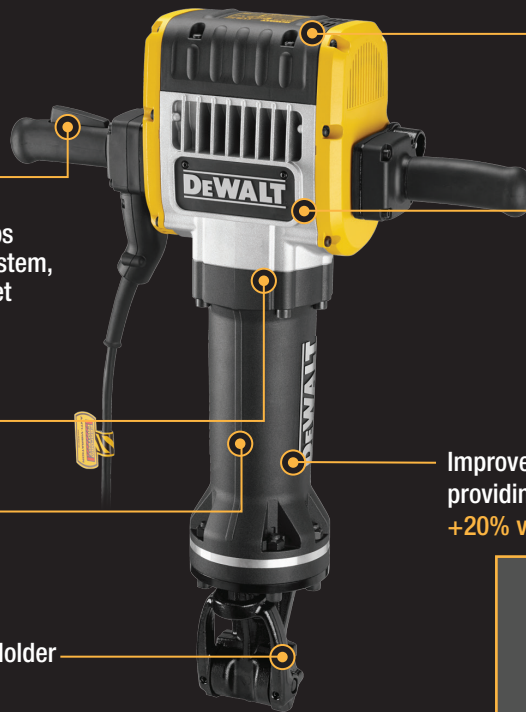

Anti-vibration system providing the lowest vibration level in the market. Suspended Handle System absorbs the rebound and working with the AVC system, delivers the lowest vibration on the market
Best in class lowest vibrations - 4.8 m/s²

Heavy duty electronic module for constant power under load

Large oversize mechanism delivers extreme durability and excellent breaking performance

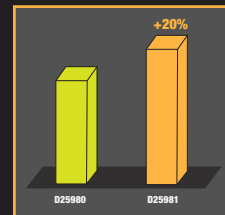

28mm HEX Tool Holder

Optimized motor and hammer mechanism deliver best performance on the market

2100W motor delivers outstanding power for heavy demolition in concrete

Improved hammer mechanism providing 62J EPTA [05/2009] +20% vs older DEWALT model

D25981K

Unit available also with Trolley for easy transportation in job sites

ACTIVE VIBRATION CONTROL

28 mm

D25981 / D25981K*

Tool Holder	28mm HEX
Power	2100W
Beats per Minute	960
Impact Energy (EPTA 05/2009)	62J
Max Impact Energy	72J
Weight	30kg
Length	780 mm
Vibration	4.8 m/s ²
Anti Vibration System	Yes

D25981K available with trolley (D258111-XJ)
