

DWE4212-B4

115mm Small Angle Grinder

1200W 110V

FEATURES

- A non locking paddle switch ensures the grinder switches off automatically when the unit is released
- High efficiency motor design improves performance in demanding applications
- Dust ejection system removes majority of debris from the air which passes over the motor, preventing abrasion and tracking
- Small girth allows user to maintain a comfortable grip, resulting in superior ergonomics
- Anti-vibration side handle to improve user comfort
- The compact gear case allows access to confined areas
- Fully leaded stator windings for increased motor durability
- Pop off brushes protect the armature from damage at the end of brush life resulting in greater motor durability
- Abrasion protected motor for increased durability
- Anti lock flange prevents the flanges from permanently locking up and locking the disc on
- Recessed spindle lock design allows max depth of cut and greater protection to button when using in confined spaces
